

Technical Data

Color	White		
Compound	PVC		
Plies	2		
Fabric/Carcass	Spun Polyester		
Cover Surface	Textured Fabric		
Hardness	N/A		
Bottom Surface	Low Friction		
Coefficient/Friction	.30 on Steel		
Working Strength	67 lbs. @ 1% Elongation		
Overall Gauge	.110"		
Weight per Sq Ft	.57		
Minimum Pulley	Normal-180°	2.5"	Back Flex 3"
Temp Range °F	20 to 180		
Food Approved	Yes		
Anti-Static	No		
Recommended Splice	Step Splice		
Clipper Lace	#36 or #1A		
Alligator Lace	#7		
Maximum Width	72"		

Features/Benefits:

Good oil and grease resistance. Limited resistance to acids, solvents and alkalines. The "Bagel Belt" is an excellent choice on bagel forming machines for forming "true bagels" (without fruit). Good choice for other dough applications too! Need grab/pull? Use textured side up. Need smooth dough transfer? Use low friction side up. For flour retention, use texture side up. For "Bagel Belts," the splice area must be sewn/stitched.
