

**Technical Data**

Color	Black		
Compound	PVC/ Polyurethane		
Plies	1		
Fabric/Carcass	Woven Polyester		
Cover Surface	.079" Smooth Urethane		
Hardness	85 Durometer		
Bottom Surface	Bare		
Coefficient/Friction	.25 on Steel		
Working Strength	150 lbs piw		
Overall Gauge	.165"		
Weight per Sq Ft	1.08		
Minimum Pulley	Normal-180°	2.5"	Back Flex 5"
Temp Range °F	10 to 180		
Food Approved	No		
Anti-Static	No		
Recommended Splice	Finger or Skived Lap		
Clipper Lace	#2		
Alligator Lace	#20		
Maximum Width	72"		

**Features/Benefits:**

Very good resistance to chemicals and oils, in moderate concentrations. The woven carcass provides strength and above average lace retention. The 85 durometer heavy cover is durable and resistant to cutting and abrasion. Ideal for handling wood chips - horizontal or trough. Also a good solution for metal or steel bending applications (i.e., stamping plants for vehicles and appliances).
