

Belt Name:
MF GU 100

Part #:
03-706

Technical Data

Color	Green
Compound	Polyester
Plies	1
Fabric/Carcass	Polyester
Cover Surface	PU Impregnation
Hardness	N/A
Bottom Surface	PU Impregnation
Coefficient/Friction	0.15
Working Strength	17# @ 1%
Overall Gauge	.02"
Weight per Sq Ft	.05#
Minimum Pulley	
Normal-180°	.4" Back Flex .4"
Temp Range °F	-20° F to 212° F
Food Approved	Yes
Anti-Static	No
Recommended Splice	Finger
Clipper Lace	Not Recommended
Alligator Lace	Not Recommended
Maximum Width	86"

Features/Benefits:

Commonly used on Rheon feeder conveyors. PU impregnation provides superior dough release on tight transfer applications. Excellent choice for industrial applications which require light to pass through the belt.
