

Technical Data

Color	Green		
Compound	PVC		
Plies	2		
Fabric/Carcass	Monofilament Polyester		
Cover Surface	.020" Smooth		
Hardness	85 Durometer		
Bottom Surface	Bare		
Coefficient/Friction	.18 on Steel		
Working Strength	70 lbs piw		
Overall Gauge	.094"		
Weight per Sq Ft	.41		
Minimum Pulley	Normal-180°	1.6"	Back Flex 2.4"
Temp Range °F	5 to 194		
Food Approved	No		
Anti-Static	Yes		
Recommended Splice	Split Finger		
Clipper Lace	#25 LP		
Alligator Lace	#1 A		
Maximum Width	80.7"		

Features/Benefits:

Moderate to good oil and grease resistance. Limited resistance to chemicals and solvents. Check the specific chemical prior to recommending. Belt lays very flat with no edge curl. Good choice as base belts for cleats and sidewalls. Extra heavy monofilament strands provide additional crosswise rigidity. An excellent belt for horizontal to vertical inclines where hold-down rollers are used on the belt edges and you want to minimize belt lift in the middle.
