

**Technical Data**

Color	Red		
Compound	Silicone		
Plies	1		
Fabric/Carcass	.016" Fiberglass		
Cover Surface	.011" Cover		
Hardness	45 Durometer		
Bottom Surface	Bare		
Coefficient/Friction	.25 on Steel		
Working Strength	40 lbs piw		
Overall Gauge	.025"		
Weight per Sq Ft	.16		
Minimum Pulley	Normal-180°	0.5"	Back Flex 1"
Temp Range °F	-70 to 450		
Food Approved	Yes		
Anti-Static	No		
Recommended Splice	Butt Splice w/Overlap		
Clipper Lace	Not Recommended		
Alligator Lace	#00 Reinforced		
Maximum Width	38"		

**Features/Benefits:**

Limited oil, grease, acid and solvent resistance. Very good resistance to wide temperature ranges. This belt is both thin and strong. Ideal for heat sealing machines, shrink tunnels, automatic weighing and feed conveyors. The silicone compound has excellent release properties. For laced belts, use 1" minimum pulley diameter. Do not use on conveyors having crowned pulleys as the fiberglass will not stretch to conform.
