

Belt Name:
Sparlon 15P

Part #:
04-708

Technical Data

Color	Black/Green		
Compound	Elastomer		
Plies	1		
Fabric/Carcass	Nylon		
Cover Surface	Super Fine Top Abrasion Resistant Rubber		
Hardness	80 Durometer Shore A		
Bottom Surface	Fine Top Abrasion Resistant Rubber		
Coefficient/Friction	0.6		
Working Strength	85# @ 1%		
Overall Gauge	.083"		
Weight per Sq Ft	.45#		
Minimum Pulley	Normal-180°	1.18"	Back Flex 1.18"
Temp Range °F	-4° F to 176° F		
Food Approved	No		
Anti-Static	Yes		
Recommended Splice	Skive		
Clipper Lace	Not Recommended		
Alligator Lace	Not Recommended		
Maximum Width	20"		

Features/Benefits:

Paper handling belt, Processing belt. Suitable for power transmission and spindle drives, in these applications the black side is the spindle side. Maximum tensile load is 350 N/m belt width.
