#### Features/Benefits:

Very good mineral and petroleum oil resistance. Good resistance to acids and solvents, but avoid high concentrations. Fire resistant. Woven carcass eliminates ply separation. Stretches to less than 2%. Special tight weave is 'quiet' on slider beds. Proven performance handling metal stampings on conveyors with 4" - 6" pulleys. Other uses include warehouse/distribution applications such as UPS or USPS. Best tracking on conveyors with 5:1 ratio (length:width).
