

Belt Name:  
**APF-FRGZ-930**

Part #  
**08-259**

### Technical Data

Color	Green
Compound	Hytre/Poly
Plies	1
Fabric/Carcass	Reinforced Monofilament
Cover Surface	Smooth
Hardness	95 Shore A
Bottom Surface	Fabric
Coefficient/Friction	0.2
Working Strength	39# @ 1%
Overall Gauge	.118"
Weight per Sq Ft	0.8
Minimum Pulley	
Normal-180°	1.43"      Back Flex
Temp Range °F	-20° to 158° F
Food Approved	No
Anti-Static	Yes
Recommended Splice	Angle Butt Splice
Clipper Lace	N/A
Alligator Lace	N/A
Maximum Width	60"

#### Features/Benefits:

Extremely durable belt with high abrasion resistance. This belt does not absorb oils, fluids, or chemicals found in the harshest environments. These belts are commonly found in roofing, glass, recycling, cardboard, and the cermaics industries.
