

Belt Name:
HSW P

Part #:
02-057

Technical Data

Color	White/Black		
Compound	SBR		
Plies	3		
Fabric/Carcass	Polyester RFL		
Cover Surface	Bare Polyester		
Hardness	N/A		
Bottom Surface	Friction		
Coefficient/Friction	.30 on Steel		
Working Strength	180#		
Overall Gauge	.115"		
Weight per Sq Ft	0.62		
Minimum Pulley			
Normal-180°	2"	Back Flex	3"
Temp Range °F	-40 to 250		
Food Approved	No		
Anti-Static	No		
Recommended Splice	Step Lap		
Clipper Lace	#2		
Alligator Lace	#15		
Maximum Width	72"		

Features/Benefits:

Very limited resistance to oil, grease, acids and solvents. The polyester top surface will not absorb moisture and has good release properties. Good choice where non-marking or low friction qualities are required. This is the industry standard belt in the tire industry and is ideal for applications conveying warm rubber extrusions. HSW-P can also be used as an extra-wide down-stacker in the corrugated box industry.
